

GISPEN TMNL AGILE

PRODUCT SUSTAINABILITY SHEET

Gispen TMNL Agile table has been designed according to circular design principles. This configuration consists of a steel frame with a 240x120 cm laminated chipboard top and is electrically height adjustable from 68 up to 118 cm. All materials have been approved and are safe to use. The materials were designed to be reused or recycled safely at the end of the product's lifetime.

Sustainability facts

- This product has low VOC emissions, ANSI BIFMA 7.1 e3 furniture sustainability test report is available
- Modular product design with standardised components facilitates reuse and customisation
- All wood in this product is sustainably sourced

MATERIAL	WEIGHT (GR)	% OF TOTAL
Steel	34.167	38,57%
Wood	32.771	36,99%
Aluminium	5.883	6,64%
Electrification parts*	5.512	6,22%
Melamine	4.522	5,10%
Glue	4.227	4,77%
Polyamide 6	491	0,55%
Paper	460	0,52%
Acrylonitrile butadiene styrene	285	0,32%
Polyester powdercoating	203	0,23%
Polyoxymethylene	56	0,06%
Grease	8	0,01%
Rubber	6	0,01%
Total	88.591	100%

Lifetime extension, reuse and recycling

We are committed to keeping the environmental footprint of our products as low as possible, so we advise you to contact us when the product is broken or no longer being used. With our Circular Hub, we make sure that the useful life of products is as long as possible.

- Lifetime extension by repair, maintenance or refurbishment
- Taking back for reuse
- Reusing parts and/or materials
- Recycling

Production and packaging

This product was produced in the Netherlands with 100% renewable energy and has been packaged using reusable and recyclable packaging materials. The product was designed to be easily disassembled.

SPECIFICATIONS

Weight: **88,59 KG**

58,22% recycled materials
in this product

90,40% recyclability
of this product

**43,56% rapidly
renewable materials**
